

The background image shows an outdoor event at an airfield. In the foreground, several radio-controlled (RC) airplanes are parked on a paved surface. One prominent red and white biplane is on the left, and a white and blue RC plane is on the right. In the middle ground, a group of people, mostly men, are gathered under a blue canopy tent. Some are looking at the planes, while others are talking. In the background, there are green hills and a large mountain range under a clear sky.

**Annual
Glacier RCers
Fun Fly & Swap Meet
September 12-13**

10am - 3pm

**Flying exhibitions of Radio Controlled Airplanes Large Planes * War
